Videos

1. **"A Research Center for Augmenting Human Intellect,"** (90-min. *video recording*) Douglas C. Engelbart, a live online hypermedia demonstration/presentation at the Fall Joint Computer Conference, San Francisco, CA, December 1968. This was the world debut of the "mouse", and of many other firsts. At one point in this historic demonstration, Engelbart linked his display screen, voice, and video image with a worker in his SRI lab, so that worker could demonstrate a part of the system live to the audience in San Francisco. Companion to Item 5 above. Selected footage from this videotape is currently on display at the Smithsonian Museum of American History Exhibit on The Information Age.
2. **"The Augmented Knowledge Workshop,"** (82-min. *VHS video cassette recording*) Douglas C. Engelbart presentation at the *ACM Conference on the History of Personal Workstations*, Palo Alto, CA, January 9-10, 1986. Companion to Item 23 above. Includes 20 minutes from the historic 1968 FJCC demonstration.
3. **"Together We Can Get There,"** (90-min. *VHS video cassette recording*) Patricia Seybold interviews Douglas C. Engelbart on high-performance organizations and what it will take to achieve them. Bootstrap Institute, 1991.
